**SIERRA COUNTY  
BOARD OF COUNTY COMMISSIONERS  
RESOLUTION No. 98-016**

**SIERRA COUNTY SUPPORT OF AN ALTERNATE ROUTE FOR THE SUN ZIA  
TRANSMISSION LINE**

**WHEREAS**, SunZia Southwest Transmission Project (SunZia) proposes to build up to two high voltage 500 k V transmission lines between Arizona and New Mexico, which will provide new delivery capacity and paths for existing and developing renewable energy resources, primarily wind, solar, and geothermal projects in New Mexico; and

**WHEREAS**, New Mexico is rich in renewable energy resources and state and local communities stand to benefit greatly from the creation of new jobs, economic development, and tax and other revenues; and

**WHEREAS**, New Mexico's renewable energy development zones are located primarily in the central and southern parts of the state where transmission capacity is virtually nonexistent, and SunZia will provide approximately 3,000 to 4,500 megawatts of new transmission capacity; and

**WHEREAS**, renewable energy projects are good for the environment and help to minimize our dependence upon foreign sources of oil, reduce air pollution and diversify energy generation sources; and

**WHEREAS**, SunZia has submitted a right-of-way application to the Bureau of Land Management (BLM) for the SunZia project and BLM will prepare an Environmental Impact Statement (EIS) pursuant to the National Environment Policy Act of 1969;

**WHEREAS**, the EIS will provide a detailed analysis of the potential environmental impacts of the project and a range of reasonable routing alternatives, including mitigation measures; and

**WHEREAS**, the BLM has conducted nine public scoping meetings throughout SunZia's study area, including Sierra County, and held meetings to request public input and identify possible issues of concern that may result from the Sun Zia project; and

**WHEREAS**, BLM seeks comments on specific issues and concerns related to alternative routes, potentially affected environmental resources or other related topics.

**NOW THEREFORE, BE IT RESOLVED**, that the Sierra County Board of Commissioners prefers SunZia's alternative route that traverses the Rio Grande River in the vicinity of Arrey, New Mexico, and travels northerly and parallel to the western boundary of the White Sands Missile Range;

**NOW THEREFORE, BE IT FURTHER RESOLVED**, Working in conjunction with the New Mexico Spaceport Authority thus avoiding any potential conflicts with space related activities;

**NOW THEREFORE, BE IT FURTHER RESOLVED**, that the Sierra County Board of Commissioners believes that such a routing for SunZia's transmission lines will result in less impact on the area's economic and environmental resources than would otherwise result from use by SunZia of the proposed route across the Rio Grande River at a point just north of US 380 and San Antonia, New Mexico;

**NOW THEREFORE, BE IT FURTHER RESOLVED**, that the Sierra County Board of Commissioners urges the Department of the Army at White Sands Missile Range to act as a Cooperative Agency in the conduct of the SunZia EIS and assist with the provision of a right-of-way over Range property that would eliminate the possibility of any detrimental economic impact to proposed development near the Truth or Consequences Airport.

**NOW THEREFORE, BE IT RESOLVED**, that the Sierra County Board of Commissioners with these conditions as stated herein, endorses the construction and operation of the SunZia Southwest Transmission Project in Sierra County.

**APPROVED, ADOPTED, AND PASSED** on this 20th day of August, 2009.

BOARD OF COUNTY COMMISSIONERS

  
JAMES COSLIN, CHAIR

  
WALTER C. ARMIJO, VICE-CHAIR

  
ALVIN J. CAMPBELL, MEMBER

ATTEST BY:

  
CONNIE GREER, COUNTY CLERK
